(Unaudited – prepared by management)

**COPPER CANYON RESOURCES LTD.  
(A Development Stage Corporation)  
UNAUDITED  
INTERIM FINANCIAL STATEMENTS**

In accordance with National Instrument 51-102 released by the Canadian Securities Administrators, the Company disclosed that its auditors have not reviewed the unaudited financial statements for the period ended March 31, 2008.

**NOTICE TO READER OF THE  
INTERIM FINANCIAL STATEMENTS**

The financial statements of Copper Canyon Resources Ltd. and the accompanying interim financial statements as at March 31, 2008 are the responsibility of the Company's management.

These financial statements have not been reviewed on behalf of the shareholders by the independent external auditors of the Company, Deloitte & Touche.

The interim financial statements have been prepared by management and include the selection of appropriate accounting principles, judgments and estimates necessary to prepare these financial statements in accordance with Canadian Generally Accepted Accounting Principles.

The Company made no cash payments for interest or income taxes in the quarter.

The accompanying notes are an integral part of these financial statements.

**March 31, 2008 and 2007**

---

## **1. Nature of Operations**

---

Copper Canyon Resources Ltd. (the "Company" or "Copper Canyon") was incorporated on June 15, 2006, pursuant to the Alberta Business Corporation Act (Alberta), and is extra-provincially registered in the Yukon and British Columbia.

The Company was created as a result of a plan of arrangement undertaken to reorganize Eagle Plains Resources Ltd. ("Eagle Plains"). The Company is in the business of exploring for mineral resources and is exploring properties located in British Columbia and the Yukon.

The future recoverability of amounts recorded as mineral exploration properties is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development, and attain profitable production or proceeds from the disposition of the properties in excess of the carrying amount.

---

## **2. Significant Accounting Policies**

---

Management has prepared the consolidated financial statements of the Company in accordance with Canadian generally accepted accounting principles. The preparation of consolidated financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The consolidated financial statements have, in management's opinion, been properly prepared using careful judgment with reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) Changes in accounting policies and practices

Effective January 1, 2008, the Company adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants ("CICA"):

- 4 Section 1535, "Capital Disclosures"
- 5 Section 3862, "Financial Instruments – Disclosures"
- 6 Section 3863, "Financial Instruments – Presentation"

These new standards have been adopted on a prospective basis with no restatement to prior period comparative balances.

Section 1535, "Capital Disclosures"

This standard requires disclosure of an entity's objectives, policies and processes for managing capital, quantitative data about what the entity regards as capital and whether the entity has complied with any capital requirements and, if it has not complied, the consequences of such non-compliance.

Our objectives when managing capital are to safeguard the Company's assets while at the same time maximizing the growth of the company and returns to its shareholders.

**March 31, 2008 and 2007**

---

## **2. Significant Accounting Policies – continued**

---

The Company defines its capital as shareholders' equity and cash and cash equivalents. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, sell assets, incur debt or return capital to shareholders. The Company is not subject to externally imposed capital requirements.

Section 3862, "Financial Instruments – Disclosure, Section 3863, "Financial Instruments – Presentation"

Section 3862 provides guidance on disclosures in the financial statements to enable users of the financial statements to evaluate the significance of financial instruments to the Company's financial position and performance, and about risks associated with both recognized and unrecognized financial instruments and how these risks are managed. Section 3863 establishes standards for presentation of financial instruments.

The Company is exposed in varying degrees to a variety of financial instrument related risks by virtue of its activities. The overall financial risk management program focuses on preservation of capital, and protecting current and future Company assets and cash flows by reducing exposure to risks posed by the uncertainties and volatilities of financial markets.

The types of risk exposure and the way in which such exposures are managed are as follows:

*Credit Risk* - The Company's credit risk is primarily attributable to its liquid financial assets. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and equivalents with high-credit quality financial institutions. The Company does not have financial assets that are invested in asset backed commercial paper.

*Liquidity Risk* – The Company ensures that there is sufficient capital in order to meet short term business requirements, after taking into account cash flows from operations and the Company's holdings of cash and cash equivalents. The company believes that these sources will be sufficient to cover the likely short and long term cash requirements. The Company's cash is invested in business accounts with quality financial institutions and which is available on demand for the Company's programs, and is not invested in any asset backed commercial paper.

*Market Risk* – The significant market risk exposures to which the Company is exposed are interest rate risk and commodity price risk. These are discussed further below:

*Interest rate risk* – In respect to the Company's financial assets, the interest rate mainly arises from the interest rate impact on our cash and cash equivalents and reclamation deposits.

**Copper Canyon Resources Ltd.**  
**Notes to Financial Statements**  
**(A Development Stage Company)**

**March 31, 2008 and 2007**

**2. Significant Accounting Policies – continued**

*Commodity price risk* – The value of the Company's mineral resource properties is related to the price of various commodities and the outlook for them. Commodity prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial retail demand, central bank lending, forward sales by producers and speculators, level of worldwide production and short-term changes in supply and demand.

The company has various financial instruments comprising of cash and cash equivalents, receivables, accounts payable and accrued liabilities.

The carrying amounts and fair values of financial assets are as follows:

	March 31 2008		December 31 2007	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Receivables				
Accounts receivable <sup>(1)</sup>	13,073	13,073	12,215	12,215
Available-for-sale financial assets				
Investments	584,561	584,561	518,999	518,999
Held-for-trading				
Cash and cash equivalents <sup>(1)</sup>	1,218,203	1,218,203	1,339,776	1,339,776
Other financial liabilities				
Payables and accrued liabilities <sup>(1)</sup>	79,606	79,606	245,809	245,809

<sup>(1)</sup> Due to the nature and/or short maturity of these financial instruments, carrying value approximated fair value

b) Mineral exploration properties

Costs of acquisition, exploration and development of mineral properties are capitalized on an area-of-interest basis. General and administrative costs are either charged to expense in the year incurred or capitalized if they directly relate to exploration. Amortization of these costs will be on a unit-of-production basis, based on estimated proven reserves of minerals of the areas, should such reserves be found. Properties are abandoned either when the lease expires or when management determines that no further work will be performed on the property since it has no value to the Company. When significant properties in an area of interest are abandoned, the costs related thereto are charged to operations on a pro-rata basis to the total costs to date included in the area, in the year of abandonment. The proceeds received from a partial disposition or an option payment is credited against the capitalized costs; proceeds received in excess of costs incurred on a property by property basis are credited to income. In addition, if there has been a delay in development activity for several successive years, a write-down of those project-capitalized costs will be charged to operations.

**March 31, 2008 and 2007**

---

**2. Significant Accounting Policies – continued**

---

Management of the Company reviews and evaluates the carrying value of each mineral property for impairment when events or changes in circumstances indicate that the carrying amounts of the related asset may not be recoverable. If the total estimated future cash flows on an undiscounted basis are less than the carrying amount of the asset, an impairment loss is recognized and the asset written down to fair value which is normally determined using the discounted value of future cash flows. Where estimates of future net cash flows are not available and where other conditions suggest impairment, management assesses whether carrying value can be recovered by considering alternative methods of determining fair value.

c) Investments

Securities acquired under option agreements executed with option partners on the Company's mineral properties are recorded at the "fair value" as determined by management. Fair value is based on closing market prices for publicly traded shares recognizing the possible effects of price fluctuations, quantities traded and similar items. The fair value may or may not approximate trading prices at the time the agreement is executed. As such, the related capitalized mining expenditures are also reduced by the fair value of the investment received.

d) Asset retirement obligations

At March 31, 2008 and 2007, the Company estimate for asset retirement obligations is not material. The Company has currently made no provision for site restoration costs or potential environmental liabilities as all properties are still in the exploration stages. A liability for the fair value of environmental and site restoration obligations will be recorded when the obligations are incurred. For the Company, significant obligations will be incurred at the time the related assets are brought into production.

e) Financial instruments

The Company carries various financial instruments. Unless otherwise indicated, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair values of these financial instruments approximate their carrying values, unless otherwise noted.

f) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, bank balances, term deposits and investments with maturities of three months or less from the date of purchase.

g) Per share amounts

Basic income (loss) per common share is computed by dividing the net income (loss) for the period by the weighted average number of common shares outstanding for the period. Diluted per share amounts reflect the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted to common shares. The treasury stock method is used to determine the dilutive effect of stock options and other dilutive instruments.

**March 31, 2008 and 2007**

---

**2. Significant Accounting Policies – continued**

---

h) Income taxes

The Company uses the liability method of accounting for income taxes. Under this method, future income tax liabilities and future income tax assets are recorded based on temporary differences – the difference between the carrying amount of an asset and liability in the balance sheet and its tax basis and the carry forward of unused tax pools and unamortized share issue costs. Future income tax assets and liabilities are measured using income tax rates expected to apply on the years in which temporary differences are expected to be recovered or settled. The effect on future income tax assets and liabilities of a change in tax rates is included in income in the period that the change is substantially enacted. Future income tax assets are evaluated and if realization is not considered “more likely than not”, a valuation allowance is provided.

i) Stock-based compensation plan

The Company has equity incentive plans which are described in Note 5. The fair value of options to purchase common shares is calculated at the date of grant using the Black-Scholes option-pricing model and that value is recorded as compensation expense over the grant's vesting period with an offsetting credit to contributed surplus. Upon exercise of the share purchase option, the associated amount is reclassified from contributed surplus to share capital. Consideration paid by employees upon exercise of share purchase options is credited to share capital.

j) Option Agreements

The Company's exploration and development activities are conducted jointly with others. These financial statements reflect only the Company's proportionate interest in such activities.

k) Measurement Uncertainty

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant areas requiring the use of management estimates include impairment of mineral properties; impairment of capital assets; useful lives for amortization of capital assets; reclamation and environmental obligations; and contingencies reported in the notes to the financial statements. Financial results as determined by actual events could differ from those estimates

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which were fully tradable with no vesting restrictions. This option valuation model requires the input of highly subjective assumptions including the expected stock price volatility. Because the Company's stock options and warrants have characteristics significantly different from those of traded options and because changes in the subjective input assumptions can materially affect the calculated fair value, such value is subject to measurement uncertainty.

**Copper Canyon Resources Ltd.**  
**Notes to Financial Statements**  
**(A Development Stage Company)**

**March 31, 2008 and 2007**

**3. Investments**

	<b>Mar 31 2008 At Market</b>	Dec 31 2007 At Market
200,000 (2007 – nil) common shares of Egoli Resources Ltd	<b>\$ 50,000</b>	\$ -
37,500 (2007 – nil) common shares of Northern Freegold Resources Ltd	<b>23,250</b>	-
64,074 (2007 – 64,074) common shares of NovaGold Resources Inc.	<b>511,311</b>	518,999
	<b>\$ 584,561</b>	\$ 518,999

For securities traded in an active market, market value is based on the quoted closing prices of the securities at March 31, 2008. The fair value of these securities may differ from the quoted trading price due to the effect of market fluctuations and adjustment for quantities traded. The investment in Egoli Resources is carried at cost as their securities are not traded in an active market.

These investments have been classified as available-for-sale securities, in accordance with Handbook Section 3855, Financial Instruments. The adoption of this Section resulted in a decrease of \$11,063 to investments with a corresponding increase to accumulated other comprehensive loss of \$11,063.

**4. Mineral Properties - continued**

---

**Copper Canyon Project**

The Copper Canyon project was under option to NovaGold Resources Inc. ("NovaGold"). Under terms of the option agreement, NovaGold has formally acquired a 60% interest in the project from the Company by fulfilling the terms of the agreement.

On February 15, 2008, Copper Canyon Resources Ltd. and NovaGold Canada Inc., a wholly-owned subsidiary of NovaGold Resources Inc. formed a 40/60 joint venture to explore and develop the Copper Canyon property, located adjacent to the Galore Creek Partnership's Galore Creek project, located in north-western British Columbia, Canada. The Galore Creek Partnership is a 50/50 partnership between Teck Cominco and NovaGold.

**Abo (Harrison-Gold) Project**

The Company entered into an option agreement on December 27, 2007 with Egoli Resources Limited ("Egoli"), a private company, whereby Egoli may earn a 75-percent interest in the Company's wholly owned Abo Gold property located in the Harrison Lake area of south-western British Columbia. Under the terms of the agreement, Egoli will incur \$7,500,000 in exploration expenditures by December 31, 2012, issue 1,000,000 common shares of Egoli to the Company and make aggregate cash payments of \$1,500,000 by December 31, 2012. Payments are due as follows:

Cash Payments	Share Payments	Exploration Expenditures	Due Date
\$ 10,000			At signing of LOI (received)
25,000	100,000		At execution of Agreement (received)
100,000	100,000		March 31, 2008 (received)
115,000	200,000	\$ 500,000	December 31, 2008
200,000	200,000	1,000,000	December 31, 2009
250,000	200,000	1,500,000	December 31, 2010
350,000	200,000	2,000,000	December 31, 2011
450,000		2,500,000	December 31, 2012
<u>\$ 1,500,000</u>	<u>1,000,000</u>	<u>\$ 7,500,000</u>	

The Company has received the cash payments of \$135,000 payable by March 31, 2008 and received the 200,000 shares as required by March 31, 2008, recorded at a value of \$50,000.

**Severance Project**

The property, located in the west-central Yukon, was acquired through an option agreement whereby a 2% Net Smelter Royalty is reserved for the vendor, 4763 NWT Ltd., half of which may be purchased at any time for \$1,000,000. The Company has also agreed to reserve for the vendors 25% of the proceeds from any subsequent third-party sale or option of the claims, to a maximum of \$100,000.

On March 21, 2007, the Company executed an option agreement with Northern Freegold Resources Ltd. ("NFR"; which has common directors with the Company) whereby NFR may earn a 100% interest (less 3% NSR) in the Severance Property by making staged cash payments totaling \$50,000 and issuing 300,000 common shares. Payments are due as follows:

c) Directors and management share options

The Company has a stock option plan for employees, directors, officers and consultants. Stock options can be issued up to a maximum number of common shares equal to 10% of the issued and outstanding common shares of the Company. The exercise price of options granted is not less than the market price of the common shares traded less the available discount under TSX Venture Exchange Inc. policies, and the vesting period is determined by the Board of Directors. Options granted can have a term of up to 5 years.

Compensation expense will be determined based on the estimated fair value of the options at the grant dates and amortized over the vesting period.

As at March 31, 2008, the Company has the following stock options outstanding:

	<b>Number of Options</b>	<b>Option Price per Share Range</b>	<b>Weighted Average Exercise Price</b>
<b>Options outstanding, beginning and end of period<sup>(1)</sup></b>	<b>2,150,000</b>	<b>\$1.00</b>	<b>\$1.00</b>

<sup>(1)</sup> These options were issued in June 2007.

The following table summarizes information about the stock options outstanding at March 31, 2008:

<b>Options outstanding</b>	<b>Option price</b>	<b>Weighted Average Exercise Price</b>	<b>Weighted Average Remaining Contractual Life</b>	<b>Number of Options Currently Exercisable</b>	<b>Weighted Average Exercise Price of Options Currently Exercisable</b>
2,150,000	\$1.00	\$1.00	4.25 years	1,975,000	\$1.00

As at March 31, 2007, the Company had no stock options outstanding:

d) Compensation expense for share options

Compensation expense has been determined based on the estimated fair value of the options at the grant dates and amortized over the vesting period.

For options issued in 2007, the fair value of stock options was estimated using the Black-Scholes option-pricing model with the following assumptions: Dividend yield Nil (2006 – Nil), expected volatility 84%; risk-free interest rate 3.99%; and weighted average life of 5 years.

For the period ended March 31, 2008, there has been no recorded stock based compensation as no options were issued to employees and directors.

**5. Equity Instruments - continued**

e) Reserved shares

Per the plan of arrangement (June 9, 2006), all option holders of record in Eagle Plains are to receive, in addition to an Eagle Plains share, one share of the Company when the option is exercised. Proceeds from the exercise of options will be split between Eagle Plains 40.65% and Copper Canyon 59.35%.

At March 31, 2008, the Company had a commitment to issue the following shares upon the exercise of certain Eagle Plains options outstanding as per the plan of arrangement:

	Number of Reserved shares	Price per Share Range	Weighted Average Effective Issue Price
Outstanding, beginning of period	3,844,500	\$0.148 - \$0.831	\$0.368
Exercised	(281,500)	(\$0.148)	(\$0.148)
<b>Outstanding, end of period</b>	<b>3,563,000</b>	<b>\$0.297 - \$0.831</b>	<b>\$0.385</b>

The following table summarizes information about the commitment to issue shares as at March 31, 2008:

Number of Shares Reserved to be Issued	Effective Issue Price	Weighted Average Remaining Contractual Life
10,000	\$0.297	1.50 years
525,000	\$0.297	1.75 years
650,000	\$0.297	2.00 years
20,000	\$0.386	2.25 years
793,000	\$0.386	2.50 years
625,000	\$0.445	2.75 years
845,000	\$0.415	3.25 years
95,000	\$0.831	3.75 years
<b>3,563,000</b>		

At March 31, 2007, the Company had a commitment to issue the following shares upon the exercise of certain Eagle Plains options outstanding as per the plan of arrangement:

	Number of Reserved shares	Price per Share Range	Weighted Average Effective Issue Price
Outstanding, beginning of period	4,010,500	\$0.059 - \$0.831	\$0.374
Exercised	(131,000)	(\$0.059 - \$0.415)	(\$0.187)
Outstanding, end of period	3,879,500	\$0.059 - \$0.831	\$0.374

**Copper Canyon Resources Ltd.**

845,000	\$0.415	3.75 years
100,000	\$0.831	4.25 years
<b>3,879,500</b>		

f) Shareholder rights protection plan

The shareholders have approved a plan which the directors intend to implement at their discretion to provide adequate time for the shareholders and the directors to seek alternatives to, and to assess the merits of, bids for the shares of the Company. This plan attaches special rights to the issued shares of the Company. These special rights are void to a bidder who seeks to acquire more than 20 % of the voting shares of the Company.

g) Warrants outstanding

At March 31, 2008, the Company has the following share purchase warrants outstanding, which were issued as part of the private placement of shares during 2007:

Outstanding, beginning and end of period <sup>(1)</sup>	Expiry	Number	Price
	<b>April 30, 2009</b>	<b>891,617</b>	<b>\$1.10</b>

<sup>(1)</sup> These warrants were issued in September 2007.

At March 31, 2007, the Company had no warrants outstanding.

**Copper Canyon Resources Ltd.**  
**Notes to Financial Statements**  
**(A Development Stage Company)**

**March 31, 2008 and 2007**

**5. Equity instruments - continued**

f) Contributed surplus

	2008		2007	
	Number of options and reserved shares	\$	Number of reserved shares	\$
<u>Reserved shares</u>				
Balance, beginning of period	3,844,500	\$ 40,809	4,010,500	\$ 42,705
Exercised	(281,500)	(2,984)	(166,000)	(1,896)
Balance, end of period	<u>3,563,000</u>	<u>37,825</u>	3,844,500	40,809
<u>Options</u>				
Outstanding, beginning and end of period	2,150,000	1,088,667	2,150,000	1,088,667
	<u>5,713,000</u>	<u>\$ 1,126,492</u>	3,844,500	\$ 1,129,476

**6. Per Share Amounts**

The calculation of loss per share has been calculated based on the weighted average number of shares outstanding during the three months ended March 31, 2008 of 50,462,913 (2007 – 48,450,954).

The net effect of applying the treasury-stock method to the weighted average number of shares outstanding had no dilutive effect for the three months ended March 31, 2008.

**7. Related Party Transactions**

Except as noted elsewhere in these financial statements, the Company was involved in the following related party transactions during the period:

- a) Management fees of \$15,000 (2007 - \$15,000) were paid to a related company which has common directors.
- b) Accounting fees of \$4,800 (2007 - \$750) were paid to a director and officer of the Company.
- c) Legal fees of \$10,437 (2007 – nil) were paid to a law firm of which one of the directors is a partner.
- d) Exploration expenses of \$3,993 (2007 – \$6,427) were paid to a related company which has common directors.

Except as discussed, all related party transactions in the normal course of business have been measured at the agreed upon exchange amounts, which is the amount of consideration established and agreed to by the related parties. The exchange amounts approximate fair values.

**March 31, 2008 and 2007**

---

**9. Commitments and Contingent Liabilities**

---

The Company has \$25,000 of term deposits and cash balances with a Canadian financial institution for the guarantee of business credit cards.

The Company has agreed to indemnify directors and officers under the bylaws of the Company to the extent permitted by law. The nature of the indemnifications prevent the Company from making a reasonable estimate of the maximum potential amount it could be required to pay to beneficiary of such indemnification agreement. The Company has purchased various insurance policies to reduce the risks association with such indemnification.

Additionally, in the ordinary course of business, other indemnifications may have also been provided pursuant to provisions of purchase and sale contracts, service agreements, option agreements, operating agreements and leasing agreements. In these agreements, the Company has indemnified counterparties if certain events occur. These indemnification provisions vary on an agreement by agreement basis. In some cases, there are no pre-determined amounts or limits included in the indemnification provisions and the occurrence of contingent events that will trigger payment under them is difficult to predict. Therefore, the maximum potential future amount that the Company could be required to pay cannot be estimated.

---

**10. Subsequent Events**

---

There were no subsequent events to disclose.

**March 31, 2008 and 2007**

---

**11. Income Taxes**

---

At the end of December 31, 2007, subject to confirmation by income tax authorities, the Company has approximately the following available tax pools:

	<u>2007</u>	<u>2006</u>
Non-capital losses carried forward for tax purposes available from time to time until 2016	\$ -	\$ 263,217
Capital loss carry forward	4,660	-
Cumulative Canadian exploration expenses	-	5,641
Undeducted share issue costs carried forward	262,956	278,085
	<u>\$ 267,616</u>	<u>\$ 546,943</u>

The components of the Company's future income tax asset (liability) are a result of the origination and reversal of temporary differences and are comprised of the following:

Nature of temporary differences	<u>2007</u>	<u>2006</u>
Unused tax losses carry forward	\$ 792	\$ 89,494
Investments	95,855	-
Property	(73,623)	(256,467)
Undeducted share issue costs	89,405	94,548
	\$ 112,429	\$ (72,425)
Valuation allowance	(112,429)	-
Net future income tax asset (liability)	<u>\$ -</u>	<u>\$ (72,425)</u>
